## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 35-54 is the inclusion of at least one processing unit connected with at least one of the printing unit and the operating unit for processing the carrier material and such that data are transferable between the processing unit and at least one of the printing unit and the operation unit. In the processing unit, data are stored that are transferred to at least one of the printing unit and operating unit and with which the graphical user interface is activated at least for operation of the processing unit. This in combination with the rest of the limitations of the claims is found in all of claims 35-54, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 55 and 56 is the inclusion of steps of processing the carrier material with at least one processing unit, the processing unit is connected with at least one of the printing unit and the operating unit for transfer of data between the processing unit and the operation unit; and with the processing unit transferring data to the operating unit by way of the graphical user interface is at least activated for operation of at least one processing unit. This in combination with the rest of the limitations of the claims is found in all of claims 55 and 56, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
